**To:** Idaho Department of Water Resources (IDWR) / Northern Idaho Adjudication (NIA)

**From:** The **Woodard Family** (N/2 GOVT LOT 2 3149N04W {AIN 213201})

**RE: Forensic Reconciliation of Water Right Seniority & Statutory Protections (1901–2026)**

**Purpose of Filing:** This supplemental packet is submitted to ensure the official state record accurately reflects the 1901 Homestead Patent (No. 572) and to correct the administrative nomenclature variance (Woodward vs. Woodard) currently present in the digital index. This filing establishes the "Real Deal" chain of title and invokes the specific 2026 Idaho Legislative Protections that govern this parcel.

→ **STATUTORY BASIS FOR RECONCILIATION (The "High-Vis" Section)**

→ **THE NORTH IDAHO WATER RIGHTS SETTLEMENT *Signed: March 5, 2026 (Judicial Decree)***

- **The Law:** This settlement provides the final judicial "Shield" for all state-based water rights in North Idaho. It establishes that senior priority dates are immune to future claims once the record is reconciled.
- **The Woodard Impact:** This binder provides the 1901 Patent and the '97-'03 deeds to facilitate this reconciliation. Once the name is corrected from the "W ghost" error to Woodard, this right is legally finalized under the March 5th decree.

→ **SB 1326: THE PROPERTY RIGHTS PROTECTION ACT *Signed: March 31, 2026 (Effective Immediately)***

- **The Law:** Formally repeals the "Open Fields Doctrine" in Idaho. It codifies that a landowner's Expectation of Privacy extends to the entire deeded acreage, including all waterways and timberlands.
- **The Woodard Impact:** This record established that Section 31 is private, deeded land. Any surveillance, drones, or unauthorized physical "scans" of the creek or pastures for development planning (e.g., Red Hog Ranch) are civil violations carrying a \$1,000 penalty per occurrence.

→ **HB 749: ANNEXATION & DEVELOPMENT CONSENT *Passed: March 2026 (Effective 2026)***

- **The Law:** Amends Section 50-222, Idaho Code. It prevents cities or developers from "managing" senior landowners into forced associations or annexations without explicit, informed consent and detailed fiscal disclosures.
- **The Woodard Impact:** This filing serves as a formal Withholding of Consent for any "Managed" road or utility associations proposed by adjacent developments that overlap the Woodard 1901 Root.

→ **SB 1355: THE FAMILY LEGACY EXEMPTION *Passed: March 2026***

- **The Law:** Creates a "Subdivision Exemption" for historical family estates. It allows the transfer of 5+ acre parcels to immediate family members without triggering the expensive commercial subdivision requirements.
- **The Woodard Impact:** This ensures that the Woodard Family stewardship can be passed to the next generation without being governed by the same rules as a commercial high-density build-out.

→ **RECORD OF ACTIVE STEWARDSHIP (The "Receipts")**

**This binder contains photographic evidence of Beneficial Use and Stewardship consistent with Idaho water law. Specifically:**

- **April 20, 2024 (Two-Year Anniversary):** Comprehensive creek cleanup and removal of invasive hawthorns to ensure water flow and habitat health.
- **June 2022:** Active management of the "Yard Washout" and flood mitigation.
- **May 2024:** The Lis Pendens filing (Instrument No. [2967284000 05/04/2024 16:00:03]) which put all parties on notice that the title and rights of these parcels were under active dispute and could not be "managed" by external developers.
- **July 3, 2025** *Red Hog Ranch Roads and Trails Association (Nonprofit with California Address 3008057000 07/03/2025 14:04:53) – Grantee*
- **December 3, 2025 11:28:22** *Red Hog Ranch Roads and Trails Association* Registers as an Idaho Domestic Entity with the Idaho Secretary of State.

→ **CLOSING STATEMENT OF FACT**

The Woodard family has operated as the Visible Sovereigns of Section 31 for over 28 years, anchored by a 125-year-old Patent. This packet is provided not as a "request," but as a Forensic Statement of Fact. We look forward to the IDWR updating its digital index to reflect the Woodard name and the senior priority of the 1901 Root.

**Thank you in advance for your time and consideration.**

**Sincerely,**

**The Woodard Family**

**Successors In Interest to the Byron H. Williams Homestead Certificate #572 dated 2/19/1901**

- Idaho law guarantees the right to *appropriate* the *unappropriated public waters* of the state for *beneficial* purposes.
- When a right to the use of the *public water* is established by *appropriation*, the resulting *water right* is a real property right.
- The laws of the State of Idaho protect real property rights, including *water rights*.
- The real property right in water is secure so long as at it is *beneficially* used.

Through most of US history, water policies have generally worked against conservation.

- ❖ In well-watered eastern states, water policy was based on riparian use rights.
- ❖ In drier western regions where water is often a limiting resource, water law is based primarily on prior appropriation rights.

Fosters "Use it or Lose it" policies.

## Appropriative Water Rights

- Based on protecting senior water users from having their supplies diminished by newcomers
- Not based on land ownership
  - No preference to riparian landowners
- First in time, first in right
  - Priority established by date water is appropriated
  - Early users senior to later users
- Right to use, not to own
- Use it or lose it
- Beneficial use is required

## Water Rights

- Must be well defined
  - Quantity that may be diverted and consumed
  - Time and place of diversion
  - Quality of delivered water and place of application
- Should be:
  - Universal - Privately owned and completely specified
  - Exclusive - Benefits and costs accrue to the owner
  - Transferable - Entirely voluntary
  - Enforceable - Secure from seizure or encroachment
- Two Systems
  - Riparian
  - Appropriative

## U.S. Water Rights

- U.S. water management policy (Postel and Richter, pp. 92 – 97)
  - No overarching national vision or goal
  - Deferred to the states (water allocation, use, and management)
  - If state law conflicts with federal, federal wins
  - International treaties *should* win over federal law
- Water resources of the Rio Grande, Colorado, and Columbia Rivers
  - Allocated by treaties between nations (US-Canada, US-Mexico)
- Within states, water rights allocate water to
  - River authorities, municipal water districts, cities, irrigation districts, farmers, industries, and citizens
- Water districts or river authorities
  - Distribute water to customers by contract
